Feature: renowned and elegant design classic

Formula Silver

Formula GTS

TECHART Formula II

Design: Five Spokes Wheel in multi-part styling
Diversity: Silver, GTS (Gloss Black), Mercury
Feature: exchangeable stainless steel wheel protection hump

Formula II Silver

Formula II GTS

Formula II Mercury

Individuality, 360 degrees. Since 1987, genuine TECHART wheels embody consistent design and inimitable style for every Porsche model. On the occasion of TECHART's 30th brand anniversary, we are proud to present two renowned design classics in a special limited offer.

The classic five-spoke **TECHART Formula** light alloy wheel. Its elegant flowing shape incorporates large spaces between the spokes and gives the finishing touch to your Porsche model. At the same time, it lets you enjoy a full view of the braking system and it dissipates heat effectively.

TECHART Formula II. The sportive evolution of the Formula styling combines the weight advantage of a monoblock wheel and the racy character of a multipart styling. TECHART Formula II wheels come with a replaceable polished stainless steel outer rim.

More opportunities to add your personal taste: we color-match your wheels and your brake calipers, we make them fit your interior decorative stitching, we add a matt surface finish or a distinctive wheel edge in contrasting color. In other words: we can make your wheels just as individual as you like it.
