

PORSCHE

Tequipment Cayenne

Accessories for Cayenne models (up to Model Year 2006)

Tequipment

At Porsche the accessories also complement the brand.

The Cayenne cannot be categorised. It's a Porsche. Where some may see a contradiction, for us it represents the core of the Porsche brand. We call it 'Ing.'.

This is the genetic code that is embodied in every Porsche. The code by which vehicles such as the 911, the Boxster, the Cayman and the Cayenne have been created. The code that stands at the heart of our name: Dr. Ing. h.c. F. Porsche AG.

It is the source of the design and quality that are the hallmarks of Porsche, the source of sports performance and unique style. This code can be found in all model-specific Tequipment products that are available to upgrade, individualise and care for your Cayenne.

These products are developed, tested and fine-tuned by the same Porsche designers and engineers

who developed, tested and fine-tuned the Cayenne. This all takes place at the Porsche Development Centre in Weissach, Germany – from design through to launch.

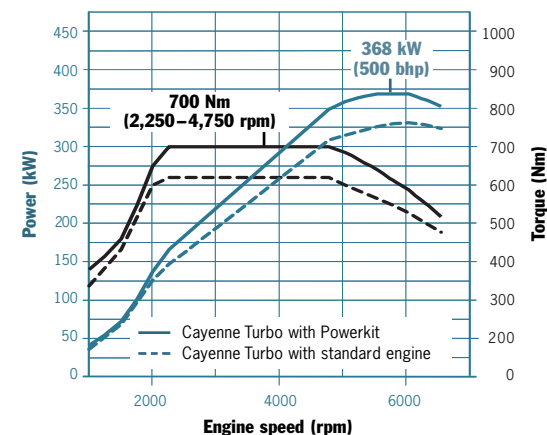

All products are subject to extensive testing for performance and long-term durability on test stands, long-term trials and test drives. Because they must meet the stringent Porsche quality guidelines and standards, just as the tools and materials do.

So that your Cayenne can stay exactly what it is: 100% Porsche. Just a bit more individual.

For example, the increased power of the Cayenne Turbo is the result of numerous measures to optimise the vehicle's intercooling system, air routing, engine control, brakes and chassis. Development was sharply focused on the performance of the vehicle as a whole.

Throughout the car's evolution, not only were the engine characteristics, performance, torque curve and braking performance enhanced, but also the chassis was adjusted in line with the increased power. These innovations have been enhanced through extensive tests in our workshops, on test stands and in test drives in extreme weather conditions. The result: even better performance.

No matter which Tequipment products you have retrofitted by your Porsche Centre, your warranty remains valid for both the product and the vehicle. This also applies to enhanced performance engines. It goes without saying that every modification made comes with full technical approval.

Exterior: on-road

Over 28,000 successful motor races leave their mark on a brand. And its vehicles.

Porsche DNA lies within the deep-rooted genetic heritage of every new Porsche. From this source springs the essence of sport and pure dynamism that is Porsche. Every element of the Cayenne expresses the genetic pattern of the Porsche sports car.

SportDesign package

The SportDesign package is a body kit that makes the Cayenne even more sporty and dynamic, and optimises its aerodynamics. It consists of four components: a front apron lower body with round fog lamps and an integrated

air shield, side sill trims, a diffuser and an extended roof spoiler in a contrasting colour, harmoniously enhancing the overall appearance. Awarded the 2005 iF Design Award.

This package is not recommended for off-road use.

For the Cayenne/Cayenne S with sill trims:
part no. 955 044 800 69
For the Cayenne/Cayenne S without sill trims:
part no. 955 044 800 71

For the Cayenne Turbo/Cayenne Turbo S with sill trims:
part no. 955 044 800 70
For the Cayenne Turbo/Cayenne Turbo S without sill trims:
part no. 955 044 800 72

Sill trims

The sill trims included in the SportDesign package may also be purchased individually. The set of right and left side trims enhances the racing lines of the Cayenne, giving it an even sportier look.

Not in conjunction with running boards or rock rails.

This package is not recommended for off-road use.

Part no. 955 044 800 75

Stainless steel skid plate

The powerful and dynamic looks of the Cayenne can be further elevated by the addition of a stainless steel skid plate. Precisely matched to the colour of the other metal fittings on your Cayenne, the skid plate allows full, generous ground

clearance. Additional rear protection is offered by the strong black plastic moulding.

Not suitable for vehicles with the SportDesign package.

For the Cayenne/Cayenne S:
part no. 955 044 800 15
For the Cayenne Turbo/Cayenne Turbo S:
part no. 955 044 800 16

Fuel filler cap in Aluminium Look finish

The fuel filler cap adds another high-quality detail to your Porsche. Its design is based on filler caps from historic racing cars. With engraved Porsche logo and securing tether.

Part no. 997 201 980 00

Air inlet grille in matt Aluminium Look finish

To give your Cayenne an even more distinctive appearance, you can add this air-inlet grille in matt Aluminium Look finish.

For the Cayenne/Cayenne S:
part no. 955 044 801 00
For the Cayenne Turbo/Cayenne Turbo S:
part no. 955 044 801 01

Roof rails

An elegant combination of form and function: the high-quality aluminium roof rail complements the vehicle design. A set of matching roof bars can also be fitted to create a roof rack. The roof rail is available in black or matt Aluminium Look finish.

Please refer to pages 38 onwards for more detailed information on transport solutions.

Not suitable for vehicles with panoramic roof system.

Roof rails in black:
part no. 955 044 000 62

Roof rails in matt Aluminium Look finish:
part no. 955 044 000 30

Drip rails

Set of four plastic drip rails in black or matt Aluminium Look finish. Provides an elegant addition to your Cayenne, particularly in combination with the matching roof rails.

Not suitable for vehicles with panoramic roof system.

Drip rails in black:
part no. 955 044 000 65

Drip rails in matt Aluminium Look finish:
part no. 955 044 000 29

Decorative side lettering

The decorative lettering that adorns the flanks of Porsche cars is almost as legendary as the vehicles themselves. Why not be part of the legend?

Decorative lettering available in selected colours:
'Cayenne', 'Cayenne S', 'Turbo', 'Turbo S'

Please see separate price list for part numbers.

Exterior: off-road

**Looks are one thing.
Function is another.
Not at Porsche.**

The origin of the Cayenne is clearly the off-road sports cars that are part of Porsche's racing history, with countless victories in the world's toughest rallying events. Outstanding form and functionality

are reflected in this comprehensive range of Tequipment exterior off-road options.

Spare wheel cover

The spare wheel cover is styled to match the rear of the Cayenne. Offers effective protection against dirt and sunlight.

Does not include Porsche logo.

Part no. 955 044 000 14

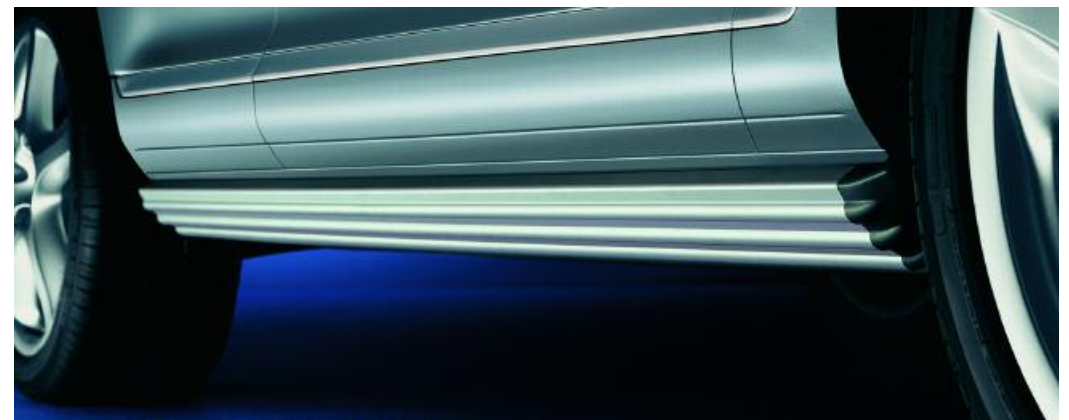

Running boards

High-strength aluminium running boards featuring integral skidplates. Provide effective sill protection in off-road terrain and easier access to the passenger compartment and the roof.

Not in conjunction with the SportDesign package (with sill trims), with rockrails or running boards.

Part no. 955 044 801 08

Rockrails

Stylish alternative to running boards in high-quality aluminium.

Featuring integral underbody protection and offering effective prevention of side-sill damage.

Not in conjunction with the SportDesign package (with sill trims), with rockrails or running boards.

Part no. 955 044 801 07

Underside protection plate

On tough off-road terrain this underside protection plate in black painted steel will not restrict the

entry angle and can be combined with the stainless steel skid plate (see page 8).

Part no. 955 107 981 00

Side protectors

Strong plastic mouldings that can be painted in the colour of your car. Protect the surface of your

doors while adding an individual touch to the Cayenne's exterior.

Part no. 955 044 800 06

Mudguards

The ribbed matt black mudguards protect the vehicle from excessive mud and dirt off-road and are well integrated into the overall design.

Not in conjunction with the SportDesign package.

Mudguards (front and rear): Not for vehicles with running boards, rockrails and sill trims: part no. 955 044 800 09

Mudguards (rear only): For vehicles with running boards, rockrails and sill trims: part no. 955 044 800 13

Wheel-arch extensions

Enhance the powerful appearance of your Cayenne with these front and rear extensions. Perfectly blended into the overall dynamic design.

For vehicles with mud guards: part no. 955 044 800 10
For vehicles without mud guards: part no. 955 044 800 11

Wheels

You can see beauty at first glance. Four times.

Performance down to the last decisive detail – that is what Porsche drivers expect, wherever they are driving. Porsche Tequipment wheel and tyre units equip your Cayenne for sporty on-road driving. The 20-inch SportTechno wheel with 10-inch-wide rear axle rim is perfectly suited. If general-purpose

wheels for everyday use are needed, the ideal choice would be the 19-inch Cayenne Design wheel. For even greater active safety in winter conditions, there is the option of a full set of wheels with winter tyres.

20-inch Cayenne SportTechno wheels with summer tyres

This athletic styling is a visible reminder of your Cayenne's sporty

focus. The rear axle rim is wider than the front axle rim. In conjunction with the concave 10J x 20-inch rear wheel rim, it gives the car an even

sportier look, and ensures better traction.

20-inch Cayenne SportDesign wheels with summer tyres

This unique 10-spoke design allows you a glimpse of the powerful Porsche braking system through

a stationary wheel. In motion, the low-profile tyres provide maximum mid-corner grip and safety.

For wheel dimensions and tyre sizes please refer to the table on page 20.

**19-inch Cayenne Design wheels
with summer/winter tyres**

The unique 10-spoke design of this wheel is particularly easy on the eye. In conjunction with winter

tyres, it ensures good traction even in winter conditions.

Also available with all-season tyres for all-year-round use (M+S designation).

**18-inch Cayenne Turbo II wheels
with winter tyres**

The 18-inch Cayenne Turbo II wheel with a dual-arm five-spoke design provides your Porsche with an outstanding distinguishing feature.

**18-inch Cayenne S II wheels
with winter tyres**

15 spokes. Low weight. High rigidity. Sophisticated design. These are the features of the 18-inch Cayenne S II wheel that give your vehicle a

spark of personality. The winter tyres make an important contribution to active safety.

For wheel dimensions and tyre sizes please refer to the table on page 20.

17-inch Cayenne wheels with winter tyres

The 17-inch Cayenne wheel in elegant 10-spoke design, ensures safer driving through greater traction in cold and wet conditions.

For wheel dimensions and tyre sizes please refer to the table on page 20.

Wheel centre set (round)

Set of four circular wheel centres with full-colour Porsche Crest.

The perfect finishing touch to your Cayenne.

Set of four for the 20-inch Cayenne SportTechno wheel, the 18-inch Cayenne Turbo II wheel, the 18-inch Cayenne S II wheel and the 17-inch Cayenne wheel:
part no. 955 044 600 10

Set of four for the 18-inch Cayenne S I wheel:
part no. 955 044 600 09

Wheel centre set (star)

Set of four star-shaped wheel centres with full-colour Porsche

Crest. A detail that gives the final polish to your Cayenne's image.

Set of four for the 20-inch Cayenne SportDesign wheel and the 19-inch Cayenne Design wheel:
part no. 955 044 600 11

Set of four for the 18-inch Cayenne Turbo I wheel:
part no. 955 044 600 12

Anti-theft wheel bolts

Set of steel bolts for alloy wheels featuring an effective anti-theft coding system.

Set of four:
part no. 955 361 057 00
Set of five:
part no. 955 361 057 01

Wheel spacers

These wheel spacers (17 mm) widen the track to give your Cayenne an even sportier look. When fitted, the outer surface of each wheel is almost flush with the exterior of the car.

Set including wheel nuts. No anti-theft wheel bolts available.

Not in conjunction with the 20-inch Cayenne SportTechno wheel with 10J x 20-inch rear axle rim and the 18-inch Cayenne Turbo I wheel.

Not compatible with snow chains.

Part no. 955 044 600 23

Note on the use of winter tyres

Summer tyres provide optimum performance at ambient temperatures above +7 °C. Below this temperature, the tyre compound begins to harden and braking distances increase. For this reason, Porsche recommends the use of winter tyres at lower temperatures so that you can enjoy the highest

standards of active safety from your Cayenne. The 'N' designation on the walls of the tyres identifies all Porsche approved winter tyres.

Snow chains

Specially designed for the Porsche Cayenne, these low-profile snow chains feature ultra-fine links and require minimum effort for fitting.

Not in conjunction with wheel spacers.

Snow chains (set of 2) for vehicles with tyre size 235/65 R 17 or 235/60 R 18: part no. 955 044 600 07

Snow chains (set of 2) for vehicles with tyre size 255/55 R 18 or 255/50 R 19 (rear axle only): part no. 955 044 600 08

If you are unable to identify the correct wheel and tyre specifications for your vehicle, please consult your Porsche Centre.

Note: Wheel centres not included. All tyres are designed exclusively for Porsche, as indicated by the specification index no. (N0, N1 etc.). These are the only tyres recommended by Porsche.

* Not suitable for Cayenne Turbo with Powerkit or Cayenne Turbo S.

** Not suitable for Cayenne S, Cayenne Turbo or Cayenne Turbo S.

The best thing about the concept of performance? That it never ends.

If you are seeking even more than excellent performance then your aim is the same as our engineers'. They are always striving to make the seemingly impossible possible. That's how it's always been, both in racing and in vehicle design and construction. So it's hardly

surprising that we try to achieve just that little bit more with the Cayenne, to make driving an even more exhilarating experience.

Powerkit for the Cayenne Turbo

An increase from 450 to 500 bhp that can satisfy the highest demands – in keeping with Porsche standards of durability and performance. The greater performance also incorporates an enlarged brake system to match the increased power, and an adapted chassis.

In the Cayenne Turbo the higher performance is achieved by the significantly enlarged and enhanced charge-air coolers, flow-optimised air circulation and upgraded engine management system.

The result: 500 bhp (368 kW), in which the maximum value in the rev range is between 5,500 and 6,000 rpm. The torque has been increased over a rev range between 2,250 and 4,750 rpm by 80 Nm to a maximum of 700 Nm. Acceleration from 0 to 100 km/h (0 to 62 mph): 5.3 seconds. Top speed: 270 km/h (168 mph).

It is not only the driving performance that has been enhanced, but also the braking performance that puts the Cayenne Turbo in another league. On the front axle there are

6-piston aluminium monobloc brake calipers as well as internally ventilated two-piece brake discs with a diameter of 380 mm (standard: 350 mm) and a thickness of 38 mm (standard: 34 mm). The specially developed additional brake air supplies enhance the brake ventilation at the front axle. On the rear axle there are 4-piston aluminium monobloc brake calipers as well as internally ventilated brake discs with a diameter of 358 mm (standard: 330 mm) and a thickness of 28 mm. Impressive dimensions to control the vehicle's power effortlessly.

Owing to the enlarged brake system, 19-inch Porsche wheels must be fitted with the appropriate clearance.

Additional equipment may need to be ordered separately for a specific model year in line with technical information.

See page 3 for the performance diagram.

Part no. 955 044 100 00

Four-tube sports tailpipes

Convey your sporty ambitions with the chrome-plated sports tailpipe in the characteristic Porsche four-tube design.

Please see separate price list for part numbers.

Powerkit for Cayenne Turbo

Fuel consumption

According to the current version of 80/1268/EEC.
 Urban 21.9 l/100 km (approx. 60 miles)
 Extra-urban 11.9 l/100 km (approx. 60 miles)
 Combined 15.7 l/100 km (approx. 60 miles)

CO₂ emissions

Combined 378 g/km

Interior

The Cayenne's design is classic, pure and sporty – just like every Porsche. Highlight one of these qualities with a range of interior features.

In terms of comfort and functionality, the Cayenne interior exceeds the highest expectations. You can make the interior an even more personal statement.

Materials range from classically refined to purist, from elegant to robust and functional – whatever your taste or the application, you will find the perfect match to apply your own personal signature to the interior of your Cayenne.

Light olive

(high-gloss or matt finish)

Wood trim in exclusive ash with 'olive' grain finish is a clear statement of elegance and individuality.

Dark burr walnut

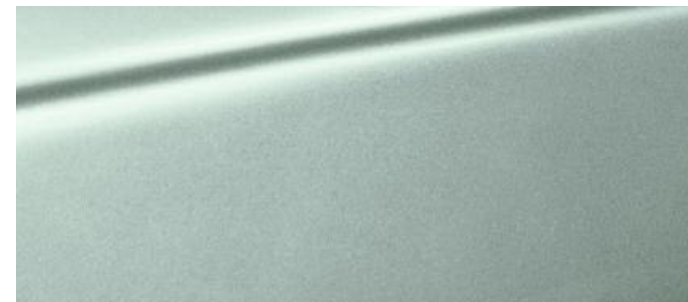

(high-gloss finish)

Dark walnut wood – classic perfection.

Aluminium

Elegant interior refinement in aluminium – or Aluminium Look paint finish – brings the racing image into the very heart of your Cayenne.

Carbon fibre

Reflect your passion for the racetrack with carbon fibre – uniquely sporty and purist.

Basic package

Make your Cayenne even more individual, with maximum refinement and maximum sportiness. The interior package includes dashboard trim strip, door trim strips, lower part of the centre console including cupholder cover (in black leather in the carbon

fibre option) and rear centre console trim. Available in a choice of light olive, dark burr walnut or carbon fibre. Centre and rear centre console surrounds are in aluminium.

Please see separate price list for part numbers.

Extra package

The extra package includes grab handles on the centre console and the front and rear door handles. Available in a choice of light olive, dark burr walnut or carbon fibre.

Please see separate price list for part numbers.

Gear lever enhancement option

Changing gear should be as perfect as the rest of the drive. Gear lever with wood or carbon fibre finish. Available in a choice of light olive, dark burr walnut or carbon fibre.

Only for vehicles with Tiptronic S.

Please see separate price list for part numbers.

Multifunction steering wheel (excluding airbag module)

Perfectly matched to the basic package, this enhances both the visual and tactile appeal of your car. Available in a choice of light olive, dark burr walnut or carbon fibre.

Please see separate price list for part numbers.

Padded leather steering wheel (excluding airbag module)

The padded leather multifunction steering wheel provides greater comfort and grip.

Please see separate price list for part numbers.

The illustrations on pages 26 and 27 show the interior package in carbon fibre.

Sport aluminium interior package

The Sport aluminium interior package includes the dashboard trim strip,

door trim strips, and centre and rear centre console surrounds.

Please see separate price list for part numbers.

Door entry guards in stainless steel

The stainless steel door entry guards are eye-catching, elegant and offer added protection for the door sill area on your Porsche. Available for driver, passenger and rear doors.

Only for the Cayenne.

Part no. 955 044 800 49

Door entry guards in stainless steel, illuminated

An unusual and very effective feature for the driver and the passenger: the stainless steel door entry guards with the white illuminated Cayenne logo welcome you into your Porsche.

Part no. 955 044 800 00

Sun/privacy screens

Allow all windows in the rear of the Cayenne to be darkened. The screens protect against direct sunlight and maintain privacy.

Set for side windows and quarter lights:
part no. 955 044 000 67

For rear window:
part no. 955 044 000 68

Rubber mats

Set of four specially moulded impermeable mats featuring non-slip surface and optimum water dispersal.

For vehicles with clip system:
part no. 955 044 802 61

For vehicles with twist button system, please also order fixing set:
part no. 955 044 802 64 8B2

Velour mats

Set of four luxury velour mats in all standard interior colours. Tailored to the Cayenne, with non-slip fixings.

For vehicles with clip system:
part no. 955 044 802 63 + colour code

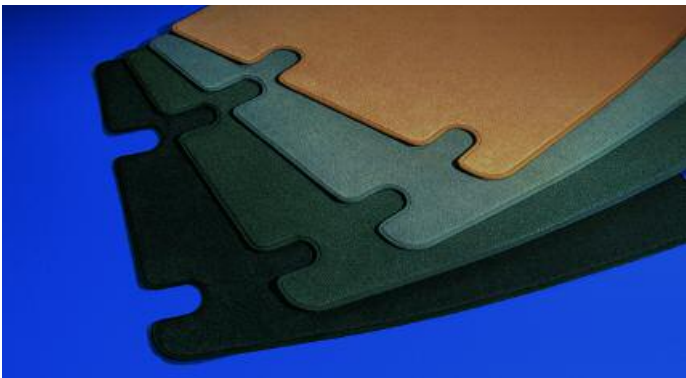

For vehicles with twist button system, please also order fixing set:
part no. 955 044 802 64 + colour code

Reversible velour mat for luggage compartment

Reversible mat to keep the luggage compartment clean: one side in velour matching the interior colour, the other side in rubber with non-slip surface.

For vehicles with four-zone air conditioning:
part no. 955 044 800 40 + colour code
For vehicles with two-zone air conditioning:
part no. 955 044 800 04 + colour code

Audio and communication

The Porsche sound is legendary. With or without music.

Our comprehensive audio and communications range is uniquely tailored to your Cayenne and can turn it into a mobile entertainment

and communication centre. After all, it's not only the sound of your Porsche engine that should be individual.

PCM with satellite navigation system

Porsche Communication Management (PCM) features an integral CD-ROM drive for audio and navigation data (for vehicles up to 05/04) or a separate DVD drive for navigation data (for vehicles after 06/04), 6.5-inch TFT colour display with 16:9 aspect ratio for the sharpest resolution, and an external navigation DVD drive. The satellite-based GPS navigation system uses a dedicated antenna to establish your position and calculate the route to your destination, including possible diversions using TMC (Traffic Message Channel) in countries that support this service. Navigating the system menus is equally straightforward with the aid of a single, multi-function control. The integrated radio system features twin FM tuners with RDS diversity and has 20 FM as well as 20 MW presets.

Includes navigation DVD.

Please consult your Porsche Centre for information regarding the suitability of your PCM.

Please see separate price list for part numbers.

Navigation update (not shown)

Update the PCM navigation system with the data status of the Model Year 2008. The update consists of a system and map update and makes navigation generally more accurate.

Please consult your Porsche Centre for information regarding the suitability of your PCM.

Only for vehicles with PCM including navigation module from Model Year 2005.

Availability expected from 12/07.

Part no. 955 044 902 60

Music player interface (not shown)

The music player interface is integrated into the centre console storage compartment and enables an external music player (iPod®, MP3 player etc.) to be connected via the Porsche CDR-23 radio or PCM. Operation is via the music player.

Includes two connections: dock connector for iPod® including battery charge function and a 3.5 mm jack connector.

Part no. 955 044 902 70

Extended navigation module for PCM

The extended navigation module works in conjunction with the GPS navigation system and enables navigation even in non-digitised districts. It has a compass and provides important information on wheel alignment, height data, length and width coordinates. The backtrace function can also be used to record and retrace routes driven.

Only for vehicles with PCM:
part no. 955 044 900 18

**Electronic logbook for PCM
(not shown)**

This electronic system supports the user in keeping a logbook, where all relevant data can be recorded and the user input is reduced to a minimum. It is operated via the PCM menu. The electronic logbook includes PC software for subsequent evaluation of data. Data can be downloaded via the PCM infrared interface.

Only for vehicles with PCM, data status as of Model Year 2005.

Please consult your Porsche Centre for information on the data status of your PCM.

Part no. 955 044 900 29

Vehicle tracking system

Enables remote location of a stolen vehicle within 25 countries of the European Union as well as Norway and Switzerland – regardless of your place of residence. Location is not continual, but occurs only in the event of an alarm. A silent alarm is automatically triggered if the car is stolen or tampered with, or after reporting by the vehicle owner. In addition to the extra

Telephone module for PCM

This powerful tri-band telephone module can be installed in addition to the PCM and has a wide transmission range in wave bands 900, 1,800 and 1,900 MHz. The PCM 12-button keypad provides easy number input.

Only for vehicles with PCM.

Please see separate price list for part numbers.

Compass

Compass located in the instrument cluster displays the four cardinal and four ordinal directions. Display shown is in Cayenne Turbo.

Part no. 955 044 900 28

Only for vehicles with vehicle tracking system preparation.

Preparation for vehicle tracking system may be necessary depending on vehicle type and equipment. Certain countries, such as the UK include the preparation as standard equipment.

A separate contract with the service provider recommended by Porsche is required, subject to additional charges.

Please see separate price list for part numbers.

security offered by this system, it may also, depending on the country, reduce your insurance premium. It has been tested using multiple simulated thefts in 27 European countries and the service has been adapted to meet Porsche quality requirements. Your Porsche Centre will be happy to provide you with further information.

HomeLink® (garage-door opener)

User-programmable garage-door opener integrated into the roof console, for up to three garage-door, gate, lighting or property alarm systems. Compatible with most garage door and gate systems.

Part no. 955 044 900 26

Digital TV reception upgrade (not shown)

This module allows vehicles already fitted with PCM and an analogue TV tuner to receive digital TV. It is

operated with a remote control using the PCM display.

Only for vehicles with analogue TV tuner.

Part no. 955 044 901 09

CD autochanger

The CDC-4 six-disc CD autochanger fits neatly into the right-hand side panel in the luggage compartment. The unit is operated via PCM or the Porsche CDR-23 audio system.

For vehicles with BOSE® Surround Sound System:
part no. 955 044 900 12

For vehicles without BOSE® Surround Sound System:
part no. 955 044 900 04

Porsche Rear Seat Entertainment

The basic system consists of two consoles with monitors (one with integral DVD player), two wireless infrared headphones, a remote control and a DVD storage pocket.

Digital anti-shock memory ensures continuous uninterrupted play. Compatible with all standard media formats (CD, DVD, MP3, etc.). Inputs for two individually selectable AV sources such as a games console, digital camera or MP3 player. Operation is either directly from the display or via the remote control supplied, with additional functions.

The 7-inch TFT displays can be adjusted horizontally for optimum viewing. The front seat headrests are independently adjustable. The system has excellent image and

sound quality. Complies with the usual Porsche safety standards, blends harmoniously with the vehicle interior and is ergonomically designed.

For vehicles up to 06/03 only in conjunction with tow device preparation.

Please see separate price list for part numbers.

Child seats

**You feel safe in your Porsche seat.
And so do your children.**

Your Cayenne does not simply represent perfection in racing design – rigorous safety standards are also an important feature of

the Porsche philosophy. For everyone in the car, even the smallest passengers – with child seats from Porsche Tequipment.

Porsche child seats

Porsche child seats guarantee security and comfort for the youngest Porsche passengers. The outer rear seats and front passenger seat in the Cayenne are fitted with the ISOFIX anchor system as standard. This system is specifically designed to attach the Porsche ISOFIX child seat using simple slot-in connectors.

Telescopic rods on the child seat slide out and slot into anchor points between the backrest and seat and hold the child seat securely against the backrest. Alternatively, Porsche ISOFIX child seats can be fitted using standard three-point safety belts.

The Porsche range of ergonomically designed child seats are also styled to match the Cayenne interior.

Seat insert

This option is designed to reduce the size of the Porsche Baby Seat ISOFIX, G 0+ and provides support for the head of a newborn child.

Part no. 955 044 800 58

Child seats	Model	Group	Weight	Age
	Porsche Baby Seat ISOFIX, G 0+ Part no. 955 044 800 42	0+	to 13 kg	to approx. 18 months
	Seat insert for Porsche Baby Seat Part no. 955 044 800 58			
	Porsche Junior Seat ISOFIX, G 1 + G 2 Part no. 955 044 800 44	1 + 2	9 to 25 kg	approx. 9 months to 7 years
	Porsche Kid Plus, G 2 + G 3 Part no. 955 044 801 02	2 + 3	15 to 36 kg	approx. 3½ to 12 years

Transport

You can fit a great deal into your Cayenne. Take more with you.

Extend the versatility of transport options on your Cayenne. You may want to use the adjustable roof bars in conjunction with the roof rails (max. payload 75 kg). Or you may prefer the roof transport

system, which is designed for vehicles without roof rails (max. payload 100 kg). Both systems can accommodate a wide range of loads.

Roof transport system (not shown)

This easy-to-use system is designed specifically for the vehicles without roof rails and is specially adapted to the Cayenne. Its maximum payload is 100 kg. The adjustable bars can be mounted into pre-defined positions and are compatible with a wide range of Tequipment load-carrying attachments. The lockable clamping system provides optimum anti-theft protection.

Part no. 955 044 000 72

Adjustable roof bars

These elegant transverse bars are suitable for use with various Tequipment load-carrying attachments and are easily fitted to the roof rails. They have a maximum payload of 75 kg and feature built-in anti-theft protection. See page 9 for information on roof rails.

Part no. 955 044 000 35

Loading aid

With this practical system, the loading bar swings down to the side to enable comfortable handling of loads at chest height. Can be used in conjunction with a range of roof accessories.

Part no. 955 044 000 04

Loading aid adaptor for roof bars: part no. 955 044 000 36

Bike carrier

This lockable carrier is ideal for the transportation of all standard bikes (adult or child) up to a frame diameter of 85 mm. Up to three bike carriers can be fitted with ease.

Part no. 955 044 000 66

Racing bike carrier

Special Porsche fixing system for your racing bike, with quick-release front clamp and adjustable rear-wheel grip, provides an easy loading facility. Two racing bike carriers can be fitted.

Not suitable for bikes with front suspension.

Part no. 000 044 000 52

Ski/snowboard carrier

For up to four pairs of skis or two snowboards.

Part no. 955 044 000 23

For up to six pairs of skis or four snowboards.

Not compatible with loading aid.

Part no. 955 044 000 24

Boat carrier

Secure transportation for a range of boats.

Not suitable for inflatable dinghies.

Part no. 955 044 000 05

Roof box (narrow)

Lockable plastic roof box offering maximum capacity of approx. 310 litres (L x W x H: 2,260 mm x 550 mm x 380 mm); with built-in ski carrier. Can be opened from either side of the vehicle.

Part no. 955 044 000 47

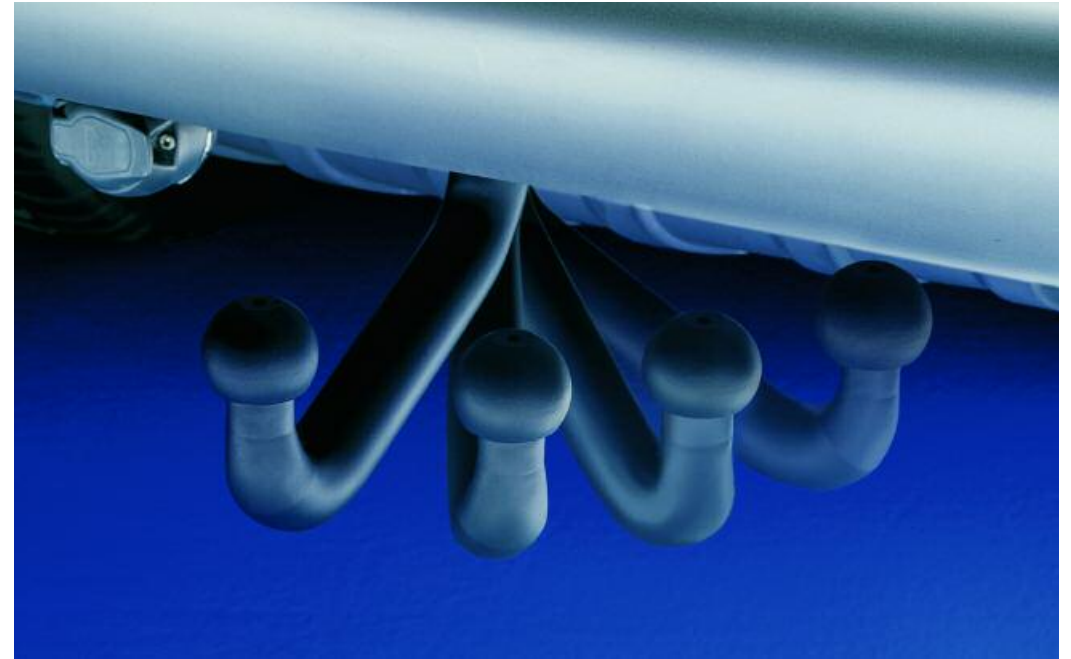

Roof box (wide)

Lockable plastic roof box offering maximum capacity of approx. 450 litres capacity; with integrated ski carrier. Can be opened from either side of the vehicle.

Not compatible with the loading aid.

Part no. 955 044 000 12

Towbar systems

The Cayenne offers a maximum braked trailer load of 3.5 tonnes by using one of two optional towbar systems. Both have a maximum payload of 140 kg and are supplied equipped with a 13-pin power socket. Neither trailer system restricts the wading capability of the vehicle.

Vehicles up to 06/03 require towbar system preparation.

With electrically retractable tow-ball

At the touch of a button, the tow-ball can be retracted beneath the rear of the car. When fully retracted, the car can be parked and loaded as normal.

Part no. 955 044 000 76

Adapter for converting from 13 to 7 pin power socket: part no. 955 044 000 64

With detachable tow-ball (not shown)

An easy-to-use automatic unlocking system for simple removal of the tow-ball, which can then be stowed in a special compartment beneath the floor of the luggage compartment. With an anti-theft locking system.

Part no. 955 044 000 73

Adapter for converting from 13 to 7 pin power socket: part no. 955 044 000 64

Guard cage

To protect the passenger compartment, this robust steel barrier is an effective retention system comprising a full metal grid positioned behind the rear seats and a three-way grid for dividing the luggage compartment. Includes a through-loading facility for skis and other long items.

Not suitable for vehicles with four-zone air conditioning.

Only in conjunction with loadspace management: part no. 955 044 000 13

Loadspace liner

Inconspicuous and effective waterproof liner protects the floor of the luggage compartment from dirt and general wear and tear. Non-slip, with a dirt-repellent surface, the liner can be wiped clean.

For vehicles with four-zone air conditioning: part no. 955 044 000 18
For vehicles without four-zone air conditioning: part no. 955 044 000 17

High-sided loadspace liner

This high-sided, robust plastic tray protects the floor and especially the sides of the luggage compartment against dirt and general wear and tear. Tailored fit, washable, waterproof, acid-resistant and suitable for carrying foodstuffs.

For vehicles with four-zone air conditioning: part no. 955 044 000 16
For vehicles without four-zone air conditioning: part no. 955 044 000 15

Load retention system

Floor and side nets for secure transportation of various items in the luggage compartment. The luggage net has four integrated hooks that attach to fixed rings on the floor of the luggage compartment. Variable size and easy to use.

Please see separate price list for part numbers.

Loadspace management system

Rail system in the luggage space floor with integrated, adjustable units for securing the load.

Includes reversible mat between the rails.

Not in combination with guard cage.

Please see separate price list for part numbers.

Cool box

This practical refrigerating cool box offers a 12-litre capacity for cooling drinks and foodstuffs, and matches the Cayenne luggage series. It features a Porsche patented attachment system for safe transportation, a 12-volt connector and battery discharge protection.

Part no. 955 044 900 30

Cargo system

This ultra-compact and collapsible system is tailored to your Cayenne and comprises two nylon bags and an attachment system. It fits neatly into the luggage compartment and is ideal for a wide range of applications (e.g. shopping, sport or business). The nylon bags can be easily detached for use as shopping bags. Includes non-slip mat.

Part no. 955 044 000 19

Car care

Even the best relationships need loving care.

Pure racing design – the joy of driving. Not only in summer – as the racing character of a Porsche shines through, whatever the weather. That's where the car care

accessories can help to keep your car running smoothly in all weather conditions. And to ensure that your Porsche is as much fun in the years to come.

Indoor car cover

Outdoor car cover

Tailored, water-resistant, silver-coloured outdoor car cover with the Porsche Crest and logo to protect your vehicle from weather conditions including strong sunlight. With anti-theft features.

Part no. 955 044 000 70

Indoor car cover

Tailored indoor car cover made of breathable, anti-static material with full-colour Porsche Crest and logo.

Part no. 955 044 000 00

Cruise control (not shown)

Automatic speed control for a range between 30 km (19 mph) and 240 km (149 mph). Operated via a button on the control stalk.

Part no. 955 044 903 00

Porsche Charge-o-mat II

Charger and trickle charger. This can be left connected for many months and prolongs the life of your battery. An adapter is available for vehicles without cigarette lighter.

Part no. 955 044 900 56

Adapter:
part no. 000 043 202 55

Cayenne car care case

Aluminium case containing a selection of car-care products specially adapted for the Cayenne. This high-quality care kit includes car wash shampoo, deep-cleaning car wax, interior glass cleaner, leather cleaner and conditioner. All products are also available individually.

Part no. 955 044 000 79

Alloy wheels cleaning kit

Contains cleaning and care materials together with a set of brushes for alloy wheels. Refill cleaning fluid is also available.

Part no. 000 044 000 86

Refill:
part no. 999 901 066 40

Interior care kit

Contains cleaning products and accessories, including velour cleaner, leather cleaner and conditioner, interior glass cleaner and synthetic surface polish.

Part no. 955 044 000 78

Porsche Financial Services
