Customer information					
Title	2015 Porsche 970 - Panamera(up to MY 2017)				
Year	2015	VIN:	WP0ZZZ97ZFL040386		
Make	Porsche	Lic Plate			
Model	970 - Panamera(up to MY 2017)	Odometer Mileage			
Sub model	Color				
Engine					

Scan report

System	Status	
DME (digital engine electronics)	Fault 7	
Transmission control	Pass No Fault	
Porsche Stability Management	Fault 3	
Airbag	Pass No Fault	
Instrument cluster	Fault 2	
Parking brake	Fault 1	
TPMS	Fault 1	
Gateway	Fault 8	
Shift lever	Pass No Fault	
High-voltage battery	Fault 11	
High voltage power electronics	Pass No Fault	
High-voltage charger	Fault 2	
Steering wheel electronics	Pass No Fault	
PCM/CDR	Pass No Fault	
A/C	Fault 2	
A/C compressor	Pass No Fault	
External amplifier	Pass No Fault	
Reversing camera/Surround View	Pass No Fault	
Front camera	Pass No Fault	
Park assist	Pass No Fault	
Level control/PASM	Fault 2	
Electric power steering	Pass No Fault	
Front end electronics	Pass No Fault	
Rear end electronics	Fault 3	

Left headlamp			Pass No Fault	
Right headlamp			Pass No Fault	
Driver seat memory			Pass No Fault	
Driver door			Pass No Fault	
Passenger door			Pass No Fault	
Left rear door			Pass No Fault	
Right rear door			Pass No Fault	
Rear lid			Pass No Fault	
DTC				
System	Codes	Description	Status	
DME (digital engine electronics)	P055600	Pressure sensor for brake booster signal implausible	Active/static	
DME (digital engine electronics)	P048000	Radiator fan control 1: electrical fault	Active/static	
DME (digital engine electronics)	P32A800	Check high-voltage battery DTC content	Active/static	
DME (digital engine electronics)	P32A800	Check high-voltage battery DTC content	Active/static	
DME (digital engine electronics)	P32A800	Check high-voltage battery DTC content	Active/static	
DME (digital engine electronics)	P32A700	Check high voltage power ECU Trouble Codes content	Active/static	
DME (digital engine electronics)	U14D400	Hybrid fault lamp (red hybrid message) request, high-voltage battery	Active/static	
Porsche Stability Management	002086	Sport mode, level control fault	Passive/Sporadic	
Porsche Stability Management	00208A	Sport mode fault	Passive/Sporadic	
Porsche Stability Management	C12019	No communication with A/C regulator	Passive/Sporadic	
Instrument cluster	C12085	Check PSM control unit Trouble Codes content	Passive/Sporadic	
Instrument cluster	C120A9	Check high voltage battery control unit Trouble Codes content	Active/static	
Parking brake	000040	Parking brake function lamp (instrument cluster) electrical fault	Passive/Sporadic	
TPMS	D01100	Supply voltage below limit	Passive/Sporadic	
Gateway	000603	Consumer shutoff (eEm)	Passive/Sporadic	
Gateway	000608	Cancel recharging of 12V battery from high-voltage battery	Passive/Sporadic	
Gateway	C1200F	No communication with steering wheel ECU (comfort CAN)	Passive/Sporadic	
Gateway	C12010	No communication with rear lid control unit	Passive/Sporadic	
Gateway	C12018	No communication with instrument cluster	Passive/Sporadic	
Gateway	C12019	No communication with A/C control unit	Passive/Sporadic	
Gateway	C1201D	No communication with PCM/CDR	Passive/Sporadic	
Gateway	C13001	Communication with battery sensor	Passive/Sporadic	
High-voltage battery	P0A0A00	High-voltage system, pilot line - Circuit open	Active/static	

High-voltage battery	P065800	12V vehicle electrical system supply voltage, contactor (terminal 30) below limit value	Passive/Sporadic
High-voltage battery	P0A7D00	High-voltage battery, State Of Charge (SOC) fault	Active/static
High-voltage battery	P0A0A00	High-voltage system, pilot line circuit open	Active/static
High-voltage battery	P0A1F00	High-voltage battery control unit, controller - Function limit	Active/static
High-voltage battery	P061000	High-voltage battery control unit - Coding	Passive/Sporadic
High-voltage battery	U014600	Gateway control unit no communication	Passive/Sporadic
High-voltage battery	P0DAB00	High-voltage battery control unit circuit open detected	Active/static
High-voltage battery	P33F100	High-voltage battery control unit, high-voltage system - Deactivation via CAN bus	Active/static
High-voltage battery	P0A7D00	High-voltage battery - State Of Charge (SOC) too low	Active/static
High-voltage battery	P0A7D00	High-voltage battery, State Of Charge (SOC) below limit value	Active/static
High-voltage charger	P33EB00	Check high-voltage battery control unit DTC content	Active/static
High-voltage charger	U112300	Check high-voltage battery control unit DTC content	Active/static
A/C	C120A9	Check high voltage battery control unit Trouble Codes content	Active/static
A/C	C120AB	Check high voltage A/C compressor control unit Trouble Codes content	Active/static
Level control/PASM	000268	Door signal, circuit short to ground, no communication	Passive/Sporadic
Level control/PASM	000314	Supply voltage too low, no control in run-on mode	Passive/Sporadic
Rear end electronics	8C260E	Vehicle Tracking System (VTS) GPS antenna function limit	Active/static
Rear end electronics	8C270E	Vehicle Tracking System (VTS) GSM antenna function limit	Active/static
Rear end electronics	C13314	Communication with slide/tilt roof (rear 1)	Active/static
